TRAININGS

React With Typescript

Codewithmosh And Others, Online

Apr 2023 - May 2023

I have learned intermediate level React in this course and made some small projects and a very complex project with it.

Front End Development Libraries

FreeCodeCamp, Online

Apr 2023 - Sep 2023

I have learned SAAS, Bootstrap, Tailwindcss, jQuery, React and Redux in this course. Along this course I built some projects such as Calculator, Pomodoro Clock, Drum Machine, Markdown Previewer and Random Quote Generator.

JavaScript Algorithms And Data Structures

FreeCodeCamp, Online

Nov 2022 - Apr 2023

I completed the freeCodeCamp JavaScript Algorithms and Data Structures course, which provided a comprehensive introduction to JavaScript programming. I developed skills in algorithms, data structures, object-oriented programming, and functional programming concepts in JavaScript. Learned to solve a variety of programming challenges using JavaScript, including string manipulation, regular expressions, debugging, and recursion. This course provided a solid foundation for advanced JavaScript development and problem-solving.

Responsive Web Design

FreeCodeCamp, Online

Oct 2022 - Oct 2022

I got a comprehensive introduction to designing and developing responsive websites using HTML5 and CSS3. I

developed skills in creating webpage structure, styling, and layout, including the use of semantic HTML elements, CSS styling, and responsive design techniques such as media queries and flexible units.

TikTok Find (single vendor e-commerce site)

Jul 2023 - Aug 2023

https://tiktokfind.io/

An e-commerce site for a client made with NextJS.
Key features:
- Manage (create, update, delete) users, products, orders, and stories from the admin panel
- User authentication with Firebase
- Checkout with Stripe
- Cart and Wishlist (Redux)

Portfolio with Next.js (app router), TypeScript and Framer Motion
